

How to Draw a Dog

You need: a pencil, an eraser, black pen or dark pencil, paper

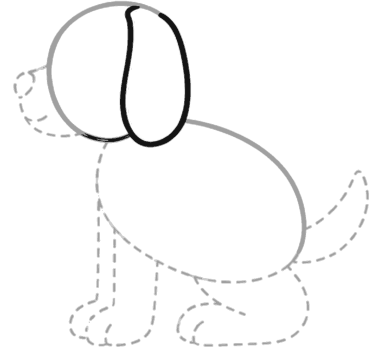

1. Draw the body oval

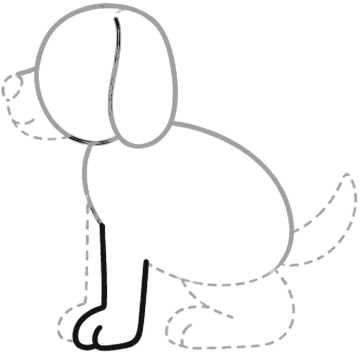

2. Add the head circle

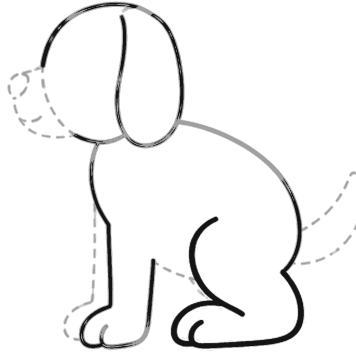

3. Draw the floppy ear

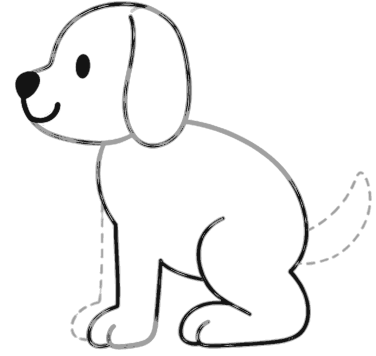

4. Make the front leg

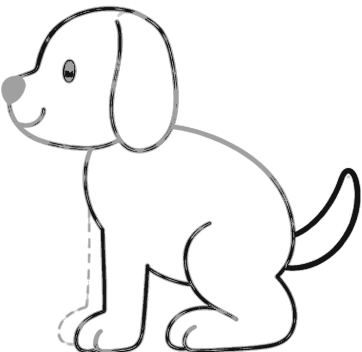

5. Add the back leg

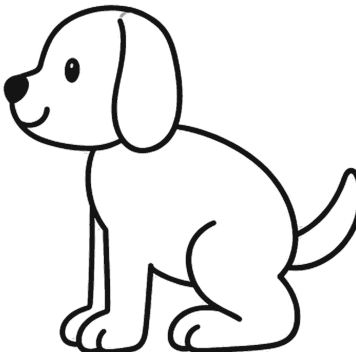

6. Draw the face

7. Add the tail

8. Finish and clean up

How to Draw a Dog

1. Draw the body oval

Draw a large tilted oval in the middle for the dog's body. Keep it smooth and rounded.

2. Add the head circle

Draw a big round head at the front, touching the body near the neck. Leave the small dotted nose circle for later.

3. Draw the floppy ear

Draw one long floppy ear hanging down from the top of the head. It curves down and back up at the bottom.

4. Make the front leg

Draw the front of the chest down into a straight front leg. Curve around the paw, add a small toe line, then bring the line back up for the inside of the leg.

5. Add the back leg

Draw the dog's back and round bottom down into the back leg. Curve around the back paw, then add the belly line and the short inner front leg line.

6. Draw the face

Fill in the small nose at the front of the head. Add one oval eye and a curved smiling mouth under the nose.

7. Add the tail

Draw a tail at the back with two curved lines that meet in a rounded point. Let it lift up and out behind the body.

8. Finish and clean up

Go over the lines you want to keep with a darker pencil or pen. Rub out the pale dotted guide lines to leave a clean finished dog.

Tips

- Draw the guide shapes lightly so they are easy to rub out.
- Keep the ear long and soft to make the dog look gentle.
- Round paws make this dog look cute and simple.
